US - 25080 - SN - RE - C

As a below named inventor, I declare that:

My residence, post office address, and citizenship are as stated below next to my name. I believe that I am the original, first and sole inventor (if only one name is listed below) or an original, first, and joint inventor (if plural names are listed below) of the subject matter that is described and claimed in United States Patent No. 5,937,095 granted on August 10, 1999 and for which a Reissue patent is sought on the invention entitled:

METHOD FOR ENCODING AND DECODING MOVING PICTURE SIGNALS

the specification of which:

☒ was filed on September 16, 2003 and was accorded U.S. Serial No. 10/662,949.

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information of which I am aware and which is material to the examination of the patent application in accordance with 37 CFR §1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below:

- ☒ by reason of a defective specification or drawing.
☒ by reason of the patentee claiming more or less than he had a right to claim in the patent.
☒ by reason of other errors.

At least one error upon which this reissue is based is described as follows:

One error in the original claims was the failure to claim the method of decoding an encoded bitstream as is disclosed in the original patent specification. This error is corrected via the submission of new claims relating to decoding of the encoded bitstream in this reissue application.

All errors corrected in this reissue application arose without any deceptive intent on the part of the applicant.

I hereby claim foreign priority benefits under 35 U.S.C. §119(a)-(d) or (f), or §365(b) of any foreign application(s) for patent, inventor's or plant breeder's rights certificate(s), or 365(a) of any PCT international application which designated at least one country other than the United States of America, listed below and have also identified below, or inventor's certificate, or §365(a) of any PCT International application which designates at least one country other than the United States, listed below any foreign application for patent, inventor's or plant breeder's rights certificate(s), or an PCT international application having a filing date before that of the application on which priority is claimed.
